Canada's Largest Integrated Wireless Voice and Data Network

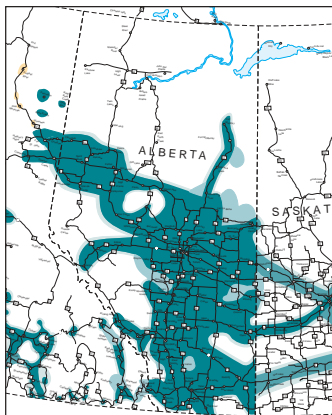

Regional Cellular Service Areas

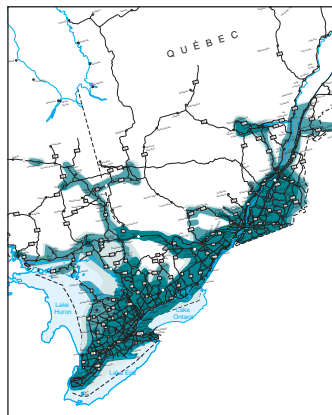

National

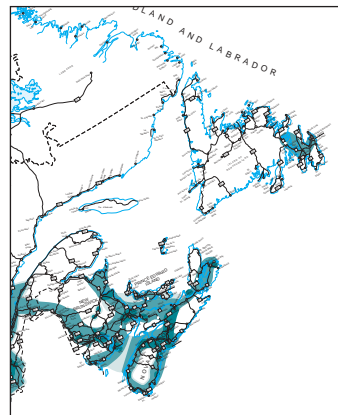

Saskatchewan, Manitoba, Kenora & Thunder Bay

Alberta

Ontario & Quebec

Atlantic

This map is a general representation of wireless coverage, and the areas shown are approximate. Actual coverage may vary, and reception depends on system availability and capacity, system repairs and modifications, customer's equipment, signal strength, topography and environmental and other conditions. Handheld portable phones used in moving vehicles without an installed in-car kit will not receive optimal quality of services and will pose a safety hazard. Some Digital PCS features available in selected areas only. Coverage area is based upon the most recent public information available as of 03/2004.
